

600U/T

Steel Dump Body

Lighter weight Crossmemberless design for Greater Payloads and Increased Revenue

Dump Body

Shown with 9 panel tailgate and barn door options.

600T

Bolt on half cabshield is standard on uninstalled units

The new Godwin 600U/T series body features a weight saving smooth crossmemberless understructure, a shock absorbing rubber cushioned mount, a durable AR 450 steel floor with 12" radius corners for cleaner dumping. There are enough length, side heights and material options to suit your specific needs. A zinc powder coat primer under powder coat topcoat, and half cabshield are standard features.
